| 4588 | Improve Qualification Registration Warning message. | Sometimes a warning was incorrectly showing on the qualification Registration screen "Not a QCF Qualification or No Pathway", when the Qualification was a non QCF credit based qualifications. This has been fixed. |

Parnassus v5.3 release notes (main features) March 2020

| New Feature / Improvement | | |
|---------------------------|---|---|
| TFS Number | Title | Additional Detail (where needed) |
| 4608 | Edit Qualification Screen Improvement | New field added <i>Last Structure Change</i> |
| 4656 | Qualification deletion improvement. | It was not possible to delete the last pathway on a Qualification, meaning it was not possible to delete a qualification. It is now possible to delete the last pathway. |
| 4681 | Qualification RoC Tab Improvements | Add Pathway Unit Weight and other fields to grid |
| 4507 | Registration import grid qualification title now truncated when long. | Previously it wrapped causing a very tall row in the grid. |
| 4729 | Qualification Search Improvements | Remember Search criteria, now works in same way as Unit search. |
| 4743 | Edit Qualification Screen - Find Unit to Add to pathway improvement. | Search now allows the / character to be specified within Search terms. |
| 4617 | New Feature; Create Optional unit Registrations for optional units with pre-existing registrations. | This feature works on Registration File Import. It is enabled by new fields on the Qualification screen. The fields on the Qualification screen are hidden by default. Please talk to GA if you are interested in this feature. |
| 4123 | Allow the "forgot password link" to be hidden through security settings. | |
| 4298 | Improvements to viewing and downloading of Alternative Achievement evidence. | Currently when a Qualification Registration has a status of "Complete" any uploaded Alternative Achievement evidence is locked and cannot be viewed. This is changed so evidence can be viewed and downloaded at all times, but changes cannot be saved once the Qualification Registration is complete. |
| 4364 | Full browser support in Chrome. | Previously it was only possible to print reports (inc. Certificates) from Internet Explorer. This can now be done on Chrome. |
| 4378 | GDPR | GDPR features added to Parnassus, including the functionality to anonymise learner details for learners who have been inactive for a given amount of time or by individual learner. Please talk to GA if you wish to use GDPR functionality as config and set up may be required. |
| 4379 | Document Management | Ability to upload and save documents in Parnassus. New functionality that allows upload of Documents to Parnassus, with a "Document first" approach. Documents can be classified as Centre, Qualification and Learner documents. There is also a "General" document classification. This feature is configurable and needs switching on. Please talk to GA if you are interested in this functionality. |
| 4392 | Parnassus Notes Improvements | Notes can now contain special characters including < >. |
| 4428 | Centre Overview page now includes - Centre Groups | |
| 4488 | Improved Grade Import Functionality | Parnassus now caters for grade file upload by Event Number and Partner Learner Identifier. |
| 4505 | Learner Search by PLI | Partner Learner Identifier added to both basic and advanced search. |
| 4528 | Registration Import - Edit Item - Tabbing improved | |
| 4587 | Registration Import Duplicate Learner Improvement. | Screen updated to show when row has been checked, if the User has chosen to create a new learner or use an existing learner. |
| 4605 | User Login and Account Improvements | - User Account always has at least one role selected. - New features - Enable/Disable user Account. |
| 4615 | New report - Achievement Batch Summary Report. | When enabled, can be viewed via the Import Achievement File Details screen. |
| 4621 | QiW Report - updates as required by QiW | |

Parnassus v5.3 release notes (main features) March 2020**New Feature / Improvement**

Parnassus v5.3 release notes (main features) March 2020

New Feature / Improvement

| TFS Number | Title | Additional Detail (where needed) |
|-----------------------|---|--|
| Notes | | |
| Workflow & Forms | <p>Workflow and Forms are included in the Parnassus core product.</p> <p>The menu option is switched off by default, as it is necessary to configure and set up workflows for each customer.</p> <p>If you are interested in using workflow functionality, please contact GA.</p> | |
| 4664 | Unit Registration deletion improvement. | Unit Registrations created via Grade Import Files can now be deleted via the 'Select Units' button on the edit qualification registration page. |
| 4730 | Unit Details - <i>Apply to all Pathways</i> - Default Weight - Default Resits | <p>If weight and resits are updated on the Unit screen there is now the option to cascade the update to all the pathway units on all Qualifications.</p> <p>This feature should be used with caution for Qualifications that have live registrations, as it will cause the Qualification registrations to be recalculated as Qualification structure is being changed.</p> |
| Workflow Fixes | | |
| 4093 | When adding an email to a workflow outcome the username is now validated | |
| 4410 | Fix workflow crash if task template that has instances or is result of outcomes is deleted - also see 4508 | |
| 4447 | Fix for Workflow Task Notes issue - When adding a note it adds it multiple times (seems to be related to how many notes already added) | |
| 4495 | Fix for - Viewing a task instance when the task template has an attachment causes workflow to crash | |
| 4508 | Fix for - Workflows - Can delete a Workflow Template Task even if it is associated with the outcome of another Workflow Template Task - see 4410 | |
| 4510 | Fix for - Workflows - Can't delete or edit an email that is added to Workflow Template Task outcome | |
