

Parnassus v5.4 release notes (main features) February 2021			
New Feature / Improvement			
TFS Number	Title	Additional Detail (where needed)	Significant New Feature
2169	Alternative Achievement Screen improvement	Improved interface when viewing Alternative Achievements on both the Pending Alternative Achievements and Edit Qualification Registration screens.	
2726	Event Registration updates	Updated so that the same learner cannot register against the same event more than once regardless of the associated qualification registration's status.	
3726	Learner Registration Improvement	Improved registration process so that Centre users can now import a registration file for a learner where that learner already exists (based upon ULN) but are not associated with the Centre user importing the file. In this scenario the file shall go into Stage 2 for the AO to de-duplicate the learner.	
4446	Registration File Upload Improvement	Updated Registration File Upload; so that existing learners can be found via their PLI assigned to the Centre of the currently logged in Centre user. This additional search option is only visible for Centre users.	
4666	PLI Label standardisation	Updated labels relating to learner's PLI to be consistent. They are now displayed as "Learner Identifier".	
4746	Centre AlertMessage field.	This is displayed when logging in as a user that is associated with Centre that has an AlertMessage specified. Updated Core Report "Centres with Groups" to include a new column for this field.	Yes
4781	Use Best improvement	Updated so that when using best, only alternative grades on the current qualification registration being calculated are included.	
4821	Qualification offered deletion improvement	Deleting a qualification offered is no longer allowed when: One or more events exist, that are assigned against the same site and same qualification associated with the qualification offered that is being attempted to be deleted.	
4822	Event Screen improvement	Updated Events area so when creating or editing an event; the listed Centres, Sites, and Qualifications are limited to those that allow new qualification registrations to be made against them. Editing Centres, Sites, and Qualifications is only allowed when no existing qualification registrations against the event exist.	
4824	XREPCentresAndQuals - Improvement	Added the Qualification Offered Status to the XREP report XREPCentresAndQuals. Also added the optional parameter CentreId.	
4824	XREPCentresAndQuals.	Added the Qualification Offered Status to the XREP report XREPCentresAndQuals.	
4862	XREP_LearnerReasonableAdjustments	Added the following columns to the existing XREP_LearnerReasonableAdjustments report: MembershipNumber PreventDataSharingToSIA SpecificReasonableAdjustments	
5019	Qualification Review Date	Added the optional datetime field ReviewDate against Qualification. This has no functional impact and is for information only.	
5087	Centre Contact improvement	When adding an existing contact to a centre, search results now return contacts even if they are already associated with the centre. Prevention of adding a duplicate centre-contact-role combination, occurs when trying to save the new contact job role.	
5176	Qualification Fee Percentage	Updated Edit Centre and Edit Qualification so that 0 or blank Fee percentage values are saved as null (shown as blank).	
5197	Edit Registration Import File Item improvement	Improved design of Learner search section on the Edit Registration Import File Item.	
5199	Duplicate Certificate update	Creating a duplicate certificate no longer marks the original certificate as invalid.	
5227	DCS Expiry Date	Added Direct Claim Status [DCS] Expiry Date to qualification offered records; which affects Grade File Importation. Further details can be obtained if requested.	Yes
5227	Grade file import email improvement	Added new grade import file email template; sent when a grade import file is moved from Stage 1 to Stage 2 and ends up with the status "DCS Expired". The purpose of this is to stop and identify the achievement where DCS has expired [new file status 'DCS Expired'] and giving visibility to the Centre User, whilst allowing AO to process the file; after a warning.	Yes
5228	Centres can now manage their own users	Centres can now manage their own users.	Yes

Parnassus v5.4 release notes (main features) February 2021			
New Feature / Improvement			
TFS Number	Title	Additional Detail (where needed)	Significant New Feature
5229	Certificate Site name	Allows a certificate site name to be optionally specified against sites. This is stored against a new certificate field, which can then be used to create new or alter existing customised certificate reports and/or the data included when creating the export to advance secure.	
5232	Qualification and Unit support for "Access to HE"	Updated the structure of both Qualifications and Units to support the newly added qualification framework "Access to HE".	
5233	DCS at Unit Level	Direct Claims Status and EV Allocation at unit level	Yes
5233	Events & EV's	Added list of eligible EVs when viewing events	
5236	Event number of Qualification registrations	Added a label to the Event overview page which shows the amount of learner qualification registrations that are associated with the event and have a status of In Progress.	
5239	Event Screen improvement	Allows Grade Import Files to be created for Event's via a new 'Add Achievement' button on the Edit Event screen.	Yes
5240	Withdraw or delete registrations when cancelling an event	You can now withdraw or delete registrations when cancelling an event	
5241	Add Facilitator to Event -UI change	Updated the user interface for adding a facilitator against an event.	
5243	Events Screen - UI Improvement	Updated the user interface for the Events - Learners tab.	
5247	Grade Import File - Notes	Updated Grade Import File screen so a Note can be saved against it. Only editable in 1st stage by Centre Users/Admins/GA. Only editable in 2nd stage by Admins/GA. Updated the Grade Import File Summary reports and notification email templates to include this new field.	
5247	Reg Import File - Notes	Updated Registration Import File screen so a Note can be saved against it. Only editable in 1st stage by Centre Users/Admins/GA. Only editable in 2nd stage by Admins/GA. Updated the Registration Import File Summary reports and notification email templates to include this new field.	
5251	Events - Improved Searching	Advanced Searching for events	
5254	Workflow Improvement	Add validation to ensure at least one role can start a workflow	
5254	Workflow Improvement	You can now control which user roles can start which workflows (including centre users)	
5257	Add "extra time required" against reasonable adjustments (special needs)		
5261	Create Certificates via Event	Updated Certificate Wizard process relating to Events. A new 'Create Certificates from Event' button now exists on the Certificates page. The Edit Event page has also been updated to have a 'Create Certificates from Event' button.	Yes
5282	Reg and Grade file - Record rejection reason	When both Registration and Grade files are returned from the second stage; the reason given is now saved against the file. If a file has one or more reasons, the most recent is shown at the top of the file. Next to which is a button that allows the user to see all the return reasons against the file.	
5286	Service layer Improvement	Allow Grade Files and Grade File Items to be added via the service layer.	
5290	Service Layer updates	New Service Methods: PLI and Find Registration improvements	
5293	Registration File improvement	Registration File Items can no longer be added against Registration files that have the status "Processed".	
5295	Event Screen improvement	New Improved UI for Events area	Yes
5298	Qualification Offered Screen Improvements	Added a 'Select/Deselect all Qualifications' button on the assign qualification to site screen; when there are results returned. If one or more are selected and the button is pressed then all shall be deselected.	
5299	Certificate Validation on Login Page	Added a security rule to hide the 'Validate a Certificate' button on the login page. Please contact GA if you want this button to be visible.	
5314	Quick Grade Entry screen Improvement	Quick Grade Entry Wizard has been improved when it's creating a Grade Import File. When an event has been selected; the units that are subsequently shown are now limited to units on the given event.	
5330	XREP Improvement	Split XREP_Qualifications into XREP_Qualifications and XREP_QualificationsAndUnits so that XREP_Qualifications only includes qualification details.	
5346	Learner DOB Improvement	Learner's DOB no longer store the time aspect.	
5348	Limited implementation of Marks for a Unit	Adding Marks into Parnassus	Yes

Parnassus v5.4 release notes (main features) February 2021			
New Feature / Improvement			
TFS Number	Title	Additional Detail (where needed)	Significant New Feature
5419	Qualification screen improvement for prerequisites	Changed so that qualification and unit prerequisites are shown as tabs rather than in a dropdown list.	
5422	Learner Address Proper Case	Added a new application setting RegistrationImport.ChangeLearnerAddressToProperCase that defaults to false. When this is changed to become true; the following supplied learner fields are updated to be converted to be "Proper Case": Street1 Street2 Street3 Town County	
5427	Registration Import Lookup now includes Address	The Registration Import File Item - Learner Lookup process now includes Address fields.	
5428	Assign EV's to Qual at Site	Added ability to assign EVs to qualifications at a particular site	
5428	EV / Contact improvements	EVs are now managed via contacts with an EV role. They can optionally also be users of the system.	Yes
5433	Certificate validator improvement	You can now warn users that the certificate shown in the validator may not look like the certificate the user is validating. Only required if you override certificate templates rather than modifying a copy.	
5444	Event Registration updates	Learners can no longer register on an event via registration import files when they already have an existing qualification registration associated with the event's qualification and the application setting Event.AllowMultipleEventRegistrationsPerQualReg is set to false.	
5463	Contact Import scripts	Please talk to Ga if you require bulk import of Contacts	
5464	Document Management Performance improvement	Performance improvement to list documents screen	
5464	Improve searching to include special characters	Special characters now allowed in datatable search data	
5481	Document Management filenames allow special characters	You can now upload files with & (and other special characters) in the name to document management	
5493	DCS Approval and Expiry Dates (CASS)	Added DCS Approval and Expiry dates to the list of qualifications offered on the Site Overview page.	Yes
5513	Workflow Improvement	Bug Fix Workflow Centre Approval form not generating site codes	
	Learner Search Improvements	Improved UI on list learners page; so that the last used search criteria is remembered.	
	Qual and Unit screen improvement	Design improvements for the Grading tab on both the Qualification and Unit screens.	
	Governance	Parnassus now has a Governance Module. Please contact Gordon Associates for details.	Yes
