PARNASSUS
learner management system

'robust software engineering for large-scale operations . . .'

Awarding Organisation Management System

Parnassus - the market's most comprehensive awarding organisation learner management system is now available in the Cloud . . .

Feature	Cloud	Enterprise
Complete web-based business management system for AOs	✔	✔
Supports regulatory compliance	✔	✔
Portal for online access by centres, EVs, EQAs etc	✔	✔
Full Audit Trail	✔	✔
Qualification database, unit bank, RoC engine	✔	✔
Supports NQF & QCF (credit-based)	✔	✔
Supports non-NQF & non-QCF qualifications and endorsed quals, CPD etc	✔	✔
Centre approval register	✔	✔
Learner registration (internal, file upload, online by centres)	✔	✔
Achievement submission & accumulation (internal, file upload, online by centres)	✔	✔
Certification	✔	✔
Comprehensive management reporting, including Excel exporting	✔	✔
Report builder for designing your own reports		✔
Exams module		✔
Finance reports	✔	✔
Finance system integration (eg Sage, GP)		✔
Imports from eAssessment	✔	✔
eAssessment system integration (eg BTL, Coelrind)		✔
Integration to other systems via Parnassus service layer		✔
Upload to LRS via csv file	✔	✔
Upload to LRS via direct integration to learningrecordsservice.org.uk		✔
Basic configuration options including simple branding	✔	✔
Full customisation capability		✔
Import of existing learners (via registration import)	✔	✔
Full data migration		✔
License cost - per month (+vat) from	£400	£1,200
License fee includes Cloud hosting, any pre-requisite software & support	✔	*
Set up fee (+vat)	£2,000	**

* Hosting can be provided for Enterprise Edition (along with licenses for Microsoft Windows and SQL Server), but most clients prefer to source their own server — and this can be on-premise or a dedicated web server.

** Setup costs for Enterprise Edition are wholly dependent on your requirements; typical project costs (including customisation, integration, data migration) can vary greatly.

Key Features

Qualifications – This module is the foundation of the system and allows you to define awards, units, pathways, assessment types & methods, grading matrix and supports pass/fail, A-E, Pass/Merit/Distinction and can be customised for other grade structures; fully supports credit-based qualifications and common units (whether on the QCF or not) - as well as NQF and other qualification frameworks. And much more …

Centres – Centres & satellite sites, approved qualifications, multiple centre types (e.g. delivery and assessment), contacts with site roles and qualification roles, approval status at centre, site, qualification level. And much more …

Registrations – Learner details, duplicate-checking, qualification or unit registration, online registrations by centres – both individual and csv or Excel file upload, links to LRS/PLR, transfers, registration batches, multiple registrations per candidate. And much more …

Achievement – Online submission of internally assessed achievement by centres either via screens or file upload, online submission of achievement by markers, verification by EQAs, accreditation of prior learning, common units, grade history, re-grades, links to eAssessment. And much more …

Certification – Supports printing of both small batches and batches of up to 10,000 certificates, certification by individual, by qualification, by centre, by unit, re-prints, duplicates. And much more . . .
